Contents Volume 30, 1991

Research papers

Foreword — M. Arnould and Harry W. Smedes 1

Current and future difficulties in the practice of engineering geology
J.E. Slosson (Van Nuys, Calif., USA), J.W. Williams (San Jose, Calif., USA) and V.C. Cronin (Milwaukee, Wisc., USA) 3

Underground construction on engineering geological terms: a fundamental necessity for the function of metropolitan environments and man's survival
C.-O. Morfeldt (Stockholm, Sweden) 13

Strontium isotopes as tracers of coal combustion residue in the environment
R.W. Hurst (Moorpark, Calif., USA), T.E. Davis (Los Angeles, Calif., USA) and A.A. Elseewi (Rosemead, Calif., USA) 59

Performance verification of solidified radioactive waste using lysimeters
R.D. Rogers and J.W. McConnell Jr (Idaho Falls, Idaho, USA) 79

Cation transport and retardation processes in view of the toxic waste deposition problem in clay rocks and clay liner encapsulation
K.A. Czurda and J.-F. Wagner (Karlsruhe, Germany) 103

Engineering geological investigations for planning and construction of an underground repository for low-level radioactive wastes
M. Langer (Hannover, Germany) 115

New sorbing grouts for radioactive and toxic heavy metals
M. Arnould, C. Clement (Paris, France), D. Gouvenot (Nanterre, France) and R. Struillou (Paris, France) 127

Research Papers

Lime modification of problem laterite
D.O.A. Osula (Auchi, Nigeria) 141

Secondary compression of sabkha "saline" soils
A.W. Dhowian (Riyadh, Saudia Arabia) 155

Engineering properties of the soil of Sana'a, the Yemen Arab Republic
S.N. Abduljauwad, A.I. Al-Mana (Dhahran, Saudi Arabia) and
K.A. Al-Gassous (Sana'a, Yemen) 171

Chemical weathering mechanisms and their effects on engineering properties of soft sandstone and conglomerate cemented by zeolite in a mountainous area
M. Chigira and K. Sone (Abiko, Japan) 195

Grain boundary microcracking of granitic rocks from the northeastern region of the Atotsugawa fault, central Japan: SEM backscattered electron images
Y. Kanaori, K. Yairi (Yanagido, Japan) and T. Ishida (Abiko, Japan) 221

Book reviews

Geotechnical Instrumentation for Monitoring Field Performance, by J. Dunniclif with the assistance of G.E. Green—R.J. Finno 237

Engineering Geology of Underground Movements, Proceedings of the 23rd annual Conference of the Engineering Group of the Geological Society, Nottingham, 1987, by F.G. Bell, M.G. Calshaw, J.C. Cripps and M.A. Lovell—M. Popescu 238

Quaternary Geology for Scientists and Engineers, by J. Catt—J. Ehlers 239

Les Mouvements de Terrain et leur Prévention, by J.-C. Flageollet—A. Giraud 240

Surface and Subsurface Mapping in Hydrogeology, by M. Erdelyi and J. Galfi—G.H. Davis . . 241

Earthquake Design Practice for Buildings, by D. Key—M. Popescu 242
Geological Maps—Their Solution and Interpretation, by T. Bolton—J.R. Keaton 243
Erratum 244

Research papers
Reservoirs and earthquakes
R.B. Meade (Lexington, Va., U.S.A.) 245
Underground opening damage from earthquakes
S. Sharma (Moscow, Idaho, U.S.A.) and W.R. Judd (West Lafayette, Ind., U.S.A.) 263
Probabilistic seismic risk analysis in the Taiwan area based on PGA and spectral amplitude attenuation formulas
C.-H. Loh, Y.T. Yeh, W.-Y. Jean and Y.-H. Yeh (Taipei, Taiwan) 277
Geotechnical characteristics of some clays from south-western Nigeria: implications for industrial utilization
S.C. Teme (Port Harcourt, Nigeria) 305
Geotechnical properties and behaviour of Nigerian tar sand
S.A. Ola (Benin City, Nigeria) 325
The potentials of Nigerian coal-reject as a construction material
C.O. Okogbue and C.L. Ezeajugh (Nsukka, Nigeria) 337
Correlation of mineralogy and index properties with residual strength of Iraklion marls
G. Tsiambaos (Athens, Greece) 357
Sheared shale response to deep TBM excavation
N. Phien-wej (Klong Luang Pathumtani, Thailand) and E.J. Cording (Urbana, Ill., U.S.A.) 371

Opinion Section
On the possibility of reservoir-induced seismicity in the Garhwal Himalaya
R. Chander (Roorkee, India) 393
